

Otolaryngology - Head & Neck Surgery

Berkeley Outpatient Center

Overview

Otolaryngology – Head and Neck Surgery (OHNS) is one of several specialty services available at the Berkeley Outpatient Center. Our OHNS specialists offer:

- **Expertise and convenience**, including ultrasound-certified physicians who perform biopsies and neck mass evaluations in clinic, as well as pre-operative visits that eliminate the need to travel to San Francisco.
- **Breakthrough therapeutics** like the hypoglossal nerve stimulator, an implanted device for sleep apnea that eliminates the need for a CPAP machine.
- **Innovative procedures** such as sialendoscopy, a minimally invasive technique for the treatment of obstructive salivary gland disorders.

CONDITIONS TREATED

- Aging face, facial reconstruction and facial aesthetic surgery
- Allergy-related complaints
- Head and neck cancers
- Hearing loss
- Nasal cavity and sinus conditions
- Salivary gland conditions
- Skin cancers, such as melanoma and squamous cell carcinoma
- Sleep medicine
- Thyroid and parathyroid conditions, including thyroid cancer

For more information, please call Otolaryngology – Head and Neck Surgery Services at (510) 985-5200.
